

## About Us

The Proudly African Market is an Arts and Entertainment platform that showcases creative activities showcased by the youth in the fields of Modelling, Music, Dance, Fashion, Poetry & Entrepreneurship. Through our collaboration with the youth, our main aim is to help build sustainable economic opportunities that will help all collaborators to attract and interest potential customers, sponsors and other relevant external stakeholders as a way to increase the success rate of youth employability in the creative industry

**EXECUTIVE DIRECTOR**  
Mthabisi Andy Dube

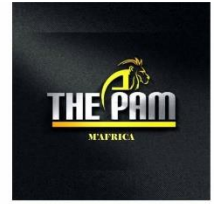

## Training Development

Since our inception in 2017 as a creative arts platform, we have taken it upon ourselves to constantly build sustainable value for the youth that we work with by linking them up with viable creative development opportunities through establishing partnerships with verifiable youth development organisations as a way to share and expose them to the necessary industry know-how expertise. As a result, all Creatives that are interested in registering in our platform are all required to go through an intensive training development programme through **Ma Africa Skills Development Academy** whereby they will be taught Self-Sustainability skills to enable them to build relevant professional skills that will increase their chances of attracting Sustainable economic opportunities for themselves
